

F600

Firefighters Helmet System

The Cromwell F600 Firefighter Helmet System is proven in use by major fire brigades and rescue services globally, with a well-earned reputation amongst firefighters for its exceptional level of wearer comfort. The Cromwell F600 was the first to be awarded dual CE certification for both helmet and face shield, providing the ultimate in head and face protection for the modern-day firefighter. The unique modular design adapts to suit operational requirements and extends service life, with easily replaced components.

KEY FEATURES

- Replaceable cover assembly protects face shield and front of helmet where most damage occurs
- Compatible with most breathing apparatus
- Unique insulating liner keeps head cool
- Simple, rapid 4-point adjustment to fit all head sizes from 52cm to 63cm
- Choice of helmet shell colors
- Optional torch fitting, neck cape and rank markings
- Option of high visibility paint scheme
- Generously padded browband for optimum comfort
- High energy impact resistant polycarbonate face shield with the option of unique dual coated anti-mist and anti-scratch protection
- Flame retardant quick release chinstrap
