AP107
Push-to-Talk (PTT)

The AP107 Push-to-Talk (PTT) is designed to interface with the connectorized version of the Adaptive Mission Platform (AMP®) headset and connect to the VIC-3 Intercom System in ground combat vehicles.

The AP107 cable interfaces with a bailout cable to connect to the vehicle intercom system, and with the AMP headset can let the operator speak on both crew internal and external radio communications, selectable via the 3 way PTT.

KEY FEATURES

- AP107 Bail-Out Adaptor
- Dual function Momentary/Locking PTT switch
