

SKULL MOUNTING SYSTEM

- Made of a hybrid composite of Nylon and mesh fabric, the Skull Mounting System is an ultra-lightweight stable platform for attaching helmet accessories in environments where ballistic and bump protection is not required.
- One size fits all; three adjustment dial knobs allow for comfort adjustments to any size or shape head.
- Features an Ops-Core Modular Bungee Shroud for universal compatibility with most NVG mounts, increased NVG Stability, and integrated NVG retention.
- Features a right-eye dominant 4-Point Head-Loc® Chinstrap and straight Accessory Rail Connectors (ARCs).
- Includes two thicknesses (1/2" and 3/4") of pads allowing for customization of fit and comfort.
- Wire and cable management system to route external wires and cables in a streamlined configuration.
- Counterweights sold separately.
