

FAST™

Gunsight Mandible

Two Levels of Added Face Protection

The unique two level design of the Ops-Core® FAST Gunsight Mandible provides additional face protection from blunt trauma and ballistic threats. Compatible with Ops-Core FAST MT Super High Cut and XP High Cut Helmets, the Gunsight Mandible protects the lower face from IED fragments, rough terrain landings (airborne), and debris encountered during off-road vehicle missions. Other advanced features include a flexible frame, which allows a close stock weld and results in minimum interference when sighting shoulder-fired weapons; front vents, which exhaust moisture from breathing and prevent the visor from fogging up; tool-less attachment; and conveniently folds to fit into a rucksack or other storage when not in use.

Shown here in Multi-Cam, the Ops-Core FAST Gunsight Mandible provides additional face protection that quickly and easily attaches without tools.

KEY FEATURES

Industry-Leading Protection and Performance

- Provides additional face protection from blunt trauma and ballistic threats
- Compatible with Ops-Core FAST MT Super High Cut and XP High Cut Helmets
- Uses two levels of ballistic protection to provide lower face protection from IED fragments, rough terrain landings (airborne), and debris encountered during off-road vehicle missions
- Flexible frame allows a close stock weld and results in minimum interference when sighting shoulder-fired weapons
- Folds conveniently to fit into rucksack or other storage.
- Quick and tool-less attachment to the Ops-Core FAST Side Rails
- One size fits all
