

UKCA Type Examination Certificate

This is to certify that: Helmet Integrated Systems Limited
3 Commerce Road
Stranraer
DG9 7DX
United Kingdom

Holds Certificate Number: UKCA 741871

In respect of:

**Respiratory protective devices.
To EN 12941:1998+A2:2008.
Powered filtering devices incorporating a hood, helmet or welding shield.**

On the basis that BSI carried out the relevant Type Examination procedures under the requirements with the Regulation 2016/425 on Personal Protective Equipment, as amended to apply in GB (PPE) Annex V (Module B) and meets the relevant health and safety requirements specified in Annex II.

For and on behalf of BSI, an Approved Body for the above Regulation (Approved Body Number 0086):

Shahm Barhom, Group Product Certification Director

UKCA Type Examination Certificate

No. UKCA 741871

Product details

Product range: Pureflo PF3000.
Product type: Powered air respiratory devices incorporating a hood, hard hat or welding shield.
Models: PF3000P
PF3000H
PF3000W

Basic description

The Pureflo 3000 range of powered air purifying respirators are self-contained units designed to provide respiratory protection against solid and liquid aerosols. Additionally some models provide eye, face and over head protection against impact. These units are intended for use by personnel working in the general industrial and clean area environment.

The unit consists of main ABS framework fitted with fan/motor assembly; adjustable cradle and ratchet headband assembly. The framework has provision for the attachment of a face shield or welding shield assembly. The frame also provides housing for a battery. A duct attached to the framework provides filtered air over the face area of the wearer. Unit is fitted with a low flow warning indicator in form of an LED. A snap fit replaceable air filter is fitted to the back of the frame.

Pureflo PF 3000P is intended for use in pharmaceutical industry and laboratories. In addition to respiratory protection, this model provides upper torso protection from falling dust and spray

Pureflo PF 3000H is intended for general industrial use. In addition to respiratory protection this model provides head, face and Eye Protection.

Pureflo PF 3000W is intended for use in welding operation. In addition to respiratory protection this model provides head and face protection against sparks, splatters and heat and eye protection against intense bright light.

Product Specification

Product Assessments

The product assessments were conducted against the requirements of the English language versions of the referenced Designated UK Standards.

Respiratory Protection

Technical Specification	EN 12941:1998 + A2:2008 respiratory protective devices – powered filtering devices incorporating a helmet or hood
EN 12941 classification:	TH3P (for use against solid and liquid particulates only)

Head Protection

Technical Specification	EN 397:2012 + A1:2012 – industrial safety helmets
EN 397 classification:	Mandatory Clauses

Eye Protection

Technical Specification	EN 166:2001 – safety eyewear
EN 166 classification:	Optical Class – 1 Protection from high speed particles – B (medium energy impact) Protection against droplets and splashes of liquid - 3

Welding Protection

Technical Specification	EN 175:1997 – equipment for eye and face protection during welding and allied processes
EN 175 classification:	Mandatory clauses Protection from high speed particles – B (medium energy impact)
