

56/P LOCKDOWN™ Liner System

Advanced Comfort & Retention System for Rotary Wing Helmet Platforms

The 56/P LOCKDOWN Liner System is a lightweight comfort and retention upgrade designed to enhance the performance of Gentex rotary wing helmet systems. Engineered to improve airflow, reduce pressure points, and decrease overall helmet weight, the system delivers increased comfort during extended missions without changing helmet sizing or compatibility.

Featuring an updated EA liner, TekNiDri® comfort pad system, and an adjustable cable-based retention system with fidlock chinstrap, the 56/P LOCKDOWN Liner System provides a modernized fit solution for rotary wing platforms.

KEY FEATURES

Enhanced Comfort

- Improved airflow channels help reduce heat buildup and increase ventilation around the head
- Minimizes pressure points and hotspots during prolonged wear

Reduced Helmet Weight

- Lightweight liner system reduces head-borne weight by more than 50 grams (depending on helmet configuration)

Modernized Fit & Retention

- Adjustable cable retention system provides a secure, customizable fit
- Updated chinstrap improves stability and comfort

Advanced Comfort Padding

- Incorporates the latest TekNiDri moisture-wicking comfort pad system for improved moisture management and long-duration wear

Common Liner Architecture

- New EA liner design shared across multiple rotary wing helmet platforms, simplifying support and logistics

Maintains Existing Helmet Sizing

- No changes to helmet sizing or fitment requirements when upgrading existing helmet systems

SPECIFICATIONS

Weight Reduction:	Greater than 50g (system dependent)
Comfort Pads:	TekNiDri Comfort Pad System
Retention:	Adjustable cable retention with updated chinstrap
Airflow:	Enhanced ventilation channels
Helmet Sizing:	Existing helmet sizing maintained
Compatibility:	HGU-56/P RWH

PART NUMBERS

Size	Part Number
XX-Small	A15637-1
X-Small	A15637-2
Small	A15637-3
Medium	A15637-4
Large	A15637-5
X-Large	A15637-6
