

IHPS ARC™ Rails

Ops-Core® Accessory Rail Connectors (ARCs) transform IHPS helmets into a streamlined platform capable of integrating mission enhancing components and accessories such as visors, mandibles, lights, and cameras. The IHPS ARC Rails easily mount to the sides of the helmet using a front clip, existing screw attachment, and a rear bracket. Multiple non-snag attachment points provide quick, easy, and secure donning and doffing of accessories and clean routing of external wires and cables in a streamlined configuration to minimize user distraction.

KEY FEATURES
